

About Jeremy Reeves

Am I the right choice for you?

Hi and thanks for taking a few minutes to read this!

I fully believe you should have a solid background of any person you're considering working with, which is why I put together this quick PDF for you.

In the following pages you'll find various pieces of important information including exactly who I am, who I can help best, and what makes my approach unique/different/more effective.

It also gives some insights into who I like to work with and what types of results I can achieve for you, based on your goals.

The main point is to give you a "quick glimpse" to help you determine if you resonate with who I am, what I do and how I might be able to help you.

If you do resonate - great! We probably have a call coming up soon (which is why you're reading this), so I look forward to chatting.

If you don't resonate - no problem! Although my ego doesn't like to admit it, I'm certainly not the right fit for everyone who comes across me ;)

Either way, I hope this helps you.

So Are We A Good Fit?

What I Do

I help my clients build automated sales funnels using STRATEGY as the foundation of everything we do together. That's because nothing else matters if the strategy is wrong, which is why most sales funnels simply don't work.

My team and I focus on the strategy and copy, while I have trusted vendors I work with to help with things like design, implementation of emails, setting up of the rules/triggers in CRM's, and everything else necessary.

Why My Approach Is Different, Unique And Effective

I don't just "build funnels". My first step is finding the untapped opportunities you have in your business and "tapping the well", so to speak. Sometimes the best way to do that is to build a sales funnel. Other times it's by adding some type of high-end offer. Many times it's a mixture of both!

Most "funnel experts" lack the knowledge of fundamental business growth strategy. They simply slap a few pages together and call it a day. We don't do that. We build what works, based on the strategy we believe (*based on roughly \$40 million in experience*) will work best.

The best step is having a chat with me to make sure we're a good fit for each other. Once we've figured that part out, I'll determine which approach I think is best for you.

My Client List

Just a small sampling...

I've worked with well over 100 clients in probably 40+ different industries. I've worked with information product owners, physical product owners, SAAS companies, coaches, consultants, offline business owners, and many others. One of my greatest gifts is taking what works in one industry and implementing it into others.

Below I've listed a handful of names that are extremely well-known in their industries...

- Robert G. Allen - Author of one of the best-selling business books in history, "No Money Down"
- **Mark Victor Hansen - Co-author of the Chicken Soup For The Soul series**
- Brad Fallon - Internet marketer & founder of several multimillion dollar online businesses
- **The Natural Health Sherpa**
- Bel Marra Nutritionals
- **Loral Langamaier ("The Millionaire Maker")**
- Multi-millionaire network marketer Tim Sales (and his wife)
- **TV show host Than Merrill** (you've probably heard him on the radio, regardless of where you live)
- Fitness legend Tom Venuto
- **JT Foxx**
- Chad Tickett & Kim Lyons (Host/personal trainer for hit TV show "Biggest Loser")
- **Real estate mogul David Lindahl**
- The guys who used to manage the well-known band "Guns n Roses"
- **Back pain expert Jesse Cannone**

- Dave Seymour – Real estate investor turned TV show host of “Flipping Boston”
- **Brilliant internet market Mike Lovitch**
- Several Inc. 500 companies...
- **The leader of online eye-tracking and heatmapping technology, CrazyEgg**
- #1 Internet leader of website usability and web analytics, Clicktale
- **Co-creator of 4 different multi-million dollar companies, Mike Litman**

Again, you may or may not know those names. However you very likely knew a few.

Results I've Achieved

Another small sample (not the full list)...

600% ROI In 7 Days...

"I've been trying to find the right copywriter for business for the past 2 years. I've worked with at least a 1/2 dozen of them... many of them being copywriters who charge \$15,000 + royalties for a single job. Not 1 of them has given me the results Jeremy Reeves has.

So far since hiring him he's already given me a 40% boost on 1 salesletter he re-wrote and a 60% increase on another.

We recently did a very soft launch with a new product and Jeremy somehow managed to get a 5.92% conversion on a \$77 product! In fact, I recouped my investment with Jeremy within the SAME day... and within a week already had made a 600% ROI on the money I invested to hire Jeremy... with a SMALL promotion which went out to a TINY FRACTION of my list!

I've since stopped my look for copywriters, because Jeremy is easy to work with... produces fantastic results... and even sets up multiple split-tests and creates the in-page design for maximum results.

What else can you ask for in a copywriter?

Jeremy Reeves Skyrocketed My Email Campaign By 270%!

I started working with Jeremy about 3 years ago and have gone back to him ANY time I need anything done to increase my profits.

Just a few of the projects we've done together include re-writing a salesletter of mine, creating a 55-email marketing campaign, ongoing split-testing, and creating an automated webinar for my franchise business.

"Jeremy Reeves email marketing service has been a real difference maker for us. Our revenue from our follow up sequences has improved over 270% since we hired Jeremy to map out and create a more effective set of emails for two of our businesses.

If you're looking for writing that produces results, look no further than Jeremy!"

“The Moment The Campaign Went Live – Sales Shot Up!”

“Jeremy Reeves wrote a highly effective 8 day email campaign that resulted in higher sales for our company. I'm not exactly sure how much... but the moment the campaign went live – our sales shot up.

He's trustworthy and hard working. I am truly glad that I decided to do business with him.”

“Jeremy produced cold traffic (targeted) straight to a salesletter that’s converting at 4%. I’ve never seen that before. Hire Jeremy if you can!”

“Trust him with filling the seats of every seminar I produce...”

“Since meeting Jeremy a few years ago and seeing his copy work in action... I’ve literally stopped my search for great copywriters – because I found the best for my money! I now trust him with filling the seats of every seminar I produce... which is saying a lot about his skills!”

“If You’re Thinking Of Using Jeremy’s Services... Go For It!”

Robert G. Allen (author of several New York Times best-selling books) had me write a salesletter for his book “Cash In A Flash”. Here’s what he had to say about the experience...

“Jeremy’s Direct Mail Campaign Got Me OVER Booked”

I hired Jeremy to write me a 3-step direct mail campaign for my business. I’d used other copywriters in the past with “ok” experiences so I was a little hesitant moving forward. Until I saw the copy.

A few days after we sent out the first piece, I realized I had to pull the plug on the rest of the campaign. Not because it wasn’t working, but because it worked so good I couldn’t take on anymore business!

Trust me, he’s worth whatever he charges.

“Jeremy Built Me A 6-Figure+ Business In 2 Months!”

I was developing a new website and knew I needed fantastic copy and marketing strategy. At first, I hired one of the most expensive copywriters in the world. I didn’t like his copy. I then found Jeremy.

Jeremy literally built my entire business from the ground up, including my entire website, various email sequences, and literally everything else to get the website live. He worked with a recommended designer and took all the work off my shoulders.

We went live and I loved the copy, but had no idea the impact it would have! Within two months (with no launch), we’re already on track for 6-figures in the first year. I’m still working with him and expect to hit 7-figures in our second year. All as a direct result of Jeremy’s copy and marketing strategy.

I’ve already recommend Jeremy to two of my other business partners, who are also astonished by his work. They’re both using him again, and referring him to their business partners as well.

“I Trust Jeremy So Much, I Referred Him To My Own Sister!”

I've worked with Jeremy Reeves on many different projects for several different clients.

Originally, I hired Jeremy to assist with ad copy related to my own marketing company. Soon after, I referred him to a close friend for assistance with his business, and finally, I paid Jeremy the ultimate compliment.

I hired him to help my sister's real estate business!

When you introduce a consultant to your own family, you really must believe in the service he provides. And that's how I feel about Jeremy and his work.

Quite simply, the guy is first rate. His marketing sense is of a high order, and this is coming from a person that just sold a 50 person advertising agency in Hunt Valley, Maryland.

On top of being extremely capable, Jeremy knows how to get the job done with a smile! He's extremely task oriented, and he's super competitive about exceeding the goals of his client.

If you're looking for a remote marketing partner who can help you achieve goals of better systems, better writing, more conversions, and more clients, you're lucky to have found Jeremy Reeves. I know I am!

6x'd My Personal Income With Afternoons Off!

Before working with Jeremy I was doing about \$4k per month. He then forced me out of my limited mindset and showed me how to command higher fees and attract the "big" clients in my industry. He's even shown me some of the most insane productivity and work-structuring skills I've ever seen.

Plus I've now roughly 6x'd my income and take a lot of afternoons off! What he's done for my life is just downright amazing.

3-5x'd My Fees While Adding More Value...

What can I say about my coaching with him? That I'm a better writer because of his actions? That my business has grown faster than I ever imagined? That my clients are happier, pay more, and refer me to other clients more often because of the added value I bring them?

All of that is true. In fact, I've roughly 3-5x my fees and income (depends on the service) and only work with amazing, fun, high-end clients who I get consistent results for!

Why You Should Get In Touch Today

Over the years I've tweaked and honed the way in which I work with clients to produce the best results and eliminate unnecessary drama. We now have a 70+ point system we go through with each new project to make sure we get the best possible results, every single time.

Besides that, here are a few reasons you should get in touch with me today...

- **No Drama** - I can't stand drama. It wastes time, creates confusion and distraction, and hurts results. I also don't tolerate clients who are in love with drama. So if you tend to fight with a lot of people... we won't be a good fit :)
- **Respect** - Many people see you as "a paycheck". I see you as a human being with (typically) a family. Many times my clients are the sole breadwinner in the family, so their business is supporting the entire family (like myself). Because of that, I keep that in the back of my mind at all times.
- **I Actually Care** - I actually care about YOU as a person. I care about you succeeding, AND your business doing well. The longer we work together, the more you'll see this to be true.
- **My #1 Goal Is Making You Money** - One of my main goals is to work with people LONG term. By working together long-term, it saves both of us time, money and energy. And since your #1 goal in working with me is to get a high return on investment, I do everything in my power to make that happen.

Thanks again for reading. If after reading this you realize I'm not the right person to help you, please email me and cancel your meeting. Otherwise if you think I am, I appreciate you taking the time to read this, and look forward to speaking with you soon!

Below is my contact information. Feel free to get in touch, and if someone has referred you to me or told you about me, please make sure you mention their name so I can thank them!
